PUBLIC PRESENT: None

HEARING CALLED TO ORDER: 18:36

Clayton reported on written and oral testimony received by him from Rachel O'Meara. He noted that she identified three changes that needed to be made that he agreed with and had inserted them into the draft revision. He read these aloud to the Board and clarified why he believed them to be necessary or improvements. A general discussion among the Board members followed about the changes, the purposes of making them, and of the importance of satisfying benefit to the Town and its development while not impeding or imposing undue constraints on the use and development of property.
